Digital Government Day 2003

Showcasing Idaho State and local government online applications, products, and services

Monday, January 27, 2003
9 a.m. to 4 p.m.   Idaho State Capitol Rotunda, 4th Floor
Presented by the ITRMC (Information Technology Resource Management Council)

Booth Participants ...

Dept. of Administration *(http://www2.state.id.us/adm/)*

Access Idaho *(http://www.accessidaho.org)*

Access Idaho is a one-stop eGovernment shop where applications are developed, marketing campaigns unfold, and funds are collected for State agencies. These services are provided at no cost to any public agency in Idaho, including counties and cities.

Office of Administrative Rules
(http://www2.state.id.us/adm/adminrules/index.htm)

The Office of Administrative Rules Web site allows you to access the full text of the Idaho Administrative Code and the monthly editions of the Idaho Administrative Bulletin, as well as Legislative Rules Review Books, rulemaking indexes, legal notices and the Rule Writer's Manual.

Employee Portal *(http://www2.state.id.us/empportal/)*
The State Employee Portal Web site is a method of quickly and easily placing Idaho State governmental web-accessible programs, applications, and information at a State employee's fingertips. The Department will demonstrate the power of web-based business applications and the functionality of these applications as they relate to State of Idaho internal work flow and productivity.

IDANET *(http://www2.state.id.us/idanet/)*
IDANET will aggregate and integrate the telecommunications needs of State agencies, K through 12 and institutions of higher education, and enhance educational as well as economic development opportunities throughout Idaho by implementing a statewide communication network.

IDAWEB
The IDAWEB Centralized Intranet Application server is for use by any State agency for generating and developing web-based business applications.

Information Technology Resource Management Council (ITRMC) *(http://www2.state.id.us/itrmc/)*

Are you connected? Find Internet service in your area with the ITRMC's new telecommunications provider database. Also displayed will be State of Idaho Digital Government Conceptual Architecture, an adjunct to the State Information Technology Plan, which was developed by the ITRMC Staff.

Division of Public Works
(http://www2.state.id.us/adm/pubworks/index.htm)
The Division of Public Works Web site features utilities for construction professionals, State agencies, State employees, and anyone else needing information about the construction and facilities management services they provide.

Division of Purchasing
(http://www2.state.id.us/adm/purchasing/index.htm)
The Division of Purchasing will demonstrate an Internet-based purchasing system, which features the ability for vendors to view and respond to solicitations, see bid results, download proposals, update company information, and receive purchase orders and contracts online.

Department of Agriculture *(http://www.agri.state.id.us/)*

Idaho Soil Conservation Commission

The Idaho OnePlan *(http://www.oneplan.org/)* is an ambitious multi-agency project that uses computer technology to combine a myriad of government regulations and current best management practices into a single plan. It will integrate federal, state, and local regulations dealing with agriculture and conservation.

Department of Correction *(http://corrections.state.id.us/)*
The Department of Correction will demonstrate its Offender Management System, which uses captured information for the planning of housing, food, and clothing for the offender population; and its Web-based Time Entry Support system (TESS), which utilizes a popular, secure, and low-maintenance hardware/software system.

Department of Education
(http://www.sde.state.id.us/Dept/)

The Kuna School District *(http://www.kunaschools.org/)* will demonstrate a few technology integration projects, including the paperless classroom, and standards-based technology integration projects in a classroom.

State Board of Education
(http://www.idahoboardofed.org/)
Higher Education will offer a tour of the Idaho Electronic Campus, a web-based portal providing access to 1400 distance learning courses.

Boise State University *(http://www.boisestate.edu)*

BSU will demonstrate its CoreOnline@BoiseState program, which addresses two key needs identified in recent planning and assessment activities: the need to improve early student success in core classes, and the need to infuse technology more broadly into the curriculum.

Idaho Public Television *(http://www.idahoptv.org/)*

IdahoPTV will showcase the Citizens Channel news and public affairs programming, now available via Digital Television (DTV) multicasting, which features FocusWest legislative news and analysis in Idaho, Wyoming, Utah, and Northern Nevada. Also on display, multi- and cross-platform K-12 curriculum materials recently distributed via DTV datacasting in a partnership with the Kuna School District.

Idaho State Library *(http://www.lili.org/isl/index.htm)*

The Libraries Linking Idaho Database Project (LiLI-D) *(http://www.lili.org/LiLI-D.htm)* – five years old this year – is a virtual library of reliable and trusted information. It connects Idaho citizens to thousands of full-length magazine, newspaper, reference, and encyclopedia articles via an Internet connection.

ITTP (Information Technology Training Program) *(http://ittp.state.id.us/ittp/)*

The principal activity of the ITTP in the State of Idaho is to provide a professional development training resource for information technology professionals within the State. ITTP also provides a technical training resource to all State employees who require computer skills to accomplish their work.

Division of Vocational Rehabilitation *(http://www2.state.id.us/idvr/idvrhome.htm)*

Vocational Rehabilitation will highlight assistive technology applications in the work place, i.e. Gemini, its caseload management system, and assistive technology related to digital technology.

Department of Finance *(http://finance.state.id.us/home.asp)*

The Department of Finance now has the capability to accept nearly 100% of license applications and fees online. In addition, consumers can file complaints, e-mail questions, look up the laws administered by the Department of Finance, and review educational materials on the updated Web site.

Department of Health and Welfare *(http://www2.state.id.us/dhw/index.htm)*

The Dept. of Health and Welfare's Common Directory (CD) will be demonstrated. The CD is a central directory that stores information about the people participating in services of the IDHW. This new directory is integrated with all the client service systems, and establishes a foundation for a more comprehensive view of the people being served by the Department.

Department of Labor *(http://www.labor.state.id.us/)*

Applications demonstrated by the Dept. of Labor: new Covered Employment and Wages, or ES-202 program; new Internet Initial Claims system; the award-winning Internet Continued Claims system; and the Applicant Tracking System (ATS), a joint effort by the Division of Human Resources and Labor.

Idaho Transportation Department *(http://www2.state.id.us/itd/index.htm)*

The Idaho Transportation Department will demonstrate its Intranet Portal and certain web applications that represent new tools for ITD employees.

Ada County *(http://www.adaweb.net/)*

Ada County will demonstrate its Web site.

Idaho Career Information System *(http://www.idahocis.org/)*

CIS provides information to the residents of the State of Idaho that helps them to become aware of the world of work, to understand the link between education and work and to make successful career decisions.

Geographic Information Systems (GIS)

Various State and local agencies will demonstrate Geospatial Information Systems (GIS) applications.

Office of the Governor *(http://www2.state.id.us/gov/)*

Division of Human Resources *(http://www.dhr.state.id.us/)*

Demonstrated Division of Human Resources applications will include: "Apply Online", the product of a partnership between the DHR and the Department of Labor; statewide e-learning programs; and DHR's online employee training offerings. Also, scan through the Division's Applicant Tracking System designed to give State agencies easy access to information about applicants and positions.

Office of the State Controller *(http://www.sco.state.id.us/)*

The State Controller's Office will demonstrate I-Time, which allows State employees to enter their timesheets online; PCard Accounting; and Travel Express. These successes exemplify the SCO's working strategy of making the most of both its current and older technologies side by side, in an effort to extend the lives of its accounting systems.

Office of the Secretary of State *(http://www.idsos.state.id.us/)*

The Office of the Secretary of State will be showcasing its online Internet services, including: Business Entity Status and UCC Lien Status Searches; UCC Financing Statement online filing process; the newly released UCC Amendments online filing application; and the online Campaign Disclosure database and scanned reports.
